Mr. Jay McLaughlin  
President and CEO  
Standard Fusee, Incorporated  
P. O. Box 1047  
Easton, MD 21601

Dear Mr. McClure and Mr. McLaughlin:

**SLIC: 425 TENNANT AVENUE, MORGAN HILL; REQUEST TO STOP UNINTERRUPTED WATER SERVICE, WELLS WITH 4 CONSECUTIVE QUARTERS OF LESS THAN 4 PPB**

Regional Board staff reviewed your request to cease uninterrupted water service to four wells containing perchlorate concentrations below 4 parts per billion (ppb). The well identification numbers for these wells are 10S03E11G001, 11S04E04K010, 11S04E04L006 and 11S04E04R013. Olin forwarded this request in a January 28, 2005 letter that included a minimum of four quarters (one year) of sample results for each well. Cleanup or Abatement Order No. R3-2004-0101 (CAO R3-2004-0101), Ordering Paragraph 2, allows Olin to cease uninterrupted water service to residences with wells that are below 4 ppb for four consecutive quarters with Executive Officer concurrence. Based upon my review, these four wells meet the criteria for cessation of uninterrupted water service, as allowed by CAO R3-2004-0101.

As a reminder, CAO R3-2004-0101 requires you to sample these four wells during the next three years. For the first year, these four wells shall be sampled semiannually. If perchlorate is still not detected at concentrations of 4 ppb or greater, then the four wells will be sampled annually for two additional years. At the end of this three-year period Olin may cease sampling with the Executive Officer's concurrence. If perchlorate is detected at or above 4 ppb at any time, the Discharger shall provide uninterrupted water service in accordance with CAO R3-2004-0101, Ordering Paragraph 1.

If you have any questions, please contact **David Athey at (805) 542-4644** or Eric Gobler at (805) 549-3467.

Sincerely,

Roger W. Briggs  
Executive Officer
